

All Women's Care
444 Community Drive – LL 3
Manhasset, NY 11030
(516) 365-1600 fax (516) 365-2181

The staff of **All Women's Care** is pleased to announce that in accordance with New York State regulations effective July 14, 2009, we are now accredited by the AAAASF (American Association for Accreditation of Ambulatory Surgery Facilities) to perform office-based gynecologic procedures under general anesthesia. At the same time, we would like to thank you for your many referrals over the past decade. Our recent accreditation will allow us to continue to provide services for your patients for many years to come.

As you know, **All Women's Care** is a private office setting where your patients will receive confidential, safe medical care surrounded by a compassionate staff. We provide first and second trimester surgical procedures as well as medical abortion with FDA-approved mifipristone (Mifiprex, RU-486). Patients are seen by appointment only and since our inception in 1998, we have become the number one recipient of referrals from Planned Parenthood, local physicians and genetic testing centers throughout the Long Island area.

At **All Women's Care** our doctors are members of the North Shore Long Island Jewish Health System and have been part of the OB/GYN community since 1981. We have board-certified gynecologists who have over twenty-five years experience in performing first and second trimester terminations of pregnancy and board-certified anesthesiologists who provide general anesthesia. Each patient receives a private counseling session, pre-operative lab work and a pre-operative sonogram. All surgical procedures are performed under continuous ultrasonic guidance followed by a post-operative sonogram. Our recovery room is supervised by physician assistants who are certified in Advanced Cardiac Life Support to ensure your patients' safety. A follow-up examination is performed in our office 2-3 weeks after the procedure prior to the patient returning to her referring physician for continuing care.

Our services are provided at a reasonable cost to your patients and most insurance plans are accepted. Of course, safety and confidentiality are our primary concerns. We are looking forward to assisting you and your patients in the future. If you would like additional information please visit our website at www.allwomenscare.com or feel free to contact us at **(516) 365-1600**.
